

 **YAMAHA****PSR-S775****PSR-S975**

Feelings into sound

The PSR-S775 and PSR-S975 are professional performance workstations with more content and a larger memory capacity for expansion packs than the previous PSR-S770 and PSR-S970 models.

Both models are equipped with a host of powerful performance features, flexible audio recording and playback functions and a mic/guitar input, making it ideal for live use on stage, in the studio or at home. In addition, PSR-S975 even features a graphical user interface for Yamaha's Virtual Circuitry Modeling (VCM) effects and the vocal harmony function.

- 61 keys with touch response
- 1460 voices (PSR-S775) / 1625 voices (PSR-S975)
- In total 433 Styles (PSR-S775) / 523 Styles incl. +Audio Styles (PSR-S975)
- DJ Styles, Live Controllers and Arpeggio function
- Real Distortion and Real Reverb in PSR-S975 with graphical user interface
- Half-bar fill-in and Mono-Legato function
- Audio Recorder / Player with enhanced functions and MP3 lyrics
- Large widescreen colour display
- Mic/guitar input, on PSR-S975 with Vocal Harmony 2 and Synth Vocoder
- Enhanced expansion memory: 280 MB (PSR-S775) / 768 MB (PSR-S975)

PSR-S775

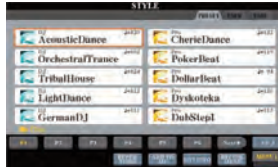

PSR-S975

Powerful features for live performance

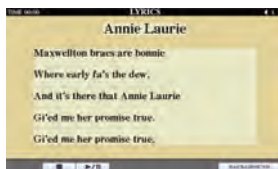

Both the PSR-S775 and PSR-S975 feature two assignable Live Controllers, a modulation wheel and two assignable foot pedal inputs, ensuring that you have total control over Voices, Styles, effects and other functions during performance. Newly implemented Half-bar fill-in and Mono Legato functions expand the variation of your performance. Live control settings can be immediately recalled from Registration Memory.

Attractive sound library covering a wide range of genres

In addition to the wide variety of on-board content, popular packs such as Euro Dance or Salsa are pre-installed in the new PLUS category. Furthermore, Yamaha Expansion Manager can be used to create new expansion data sets containing content from various packs which can then be installed into the new larger internal expansion memory.

USB audio playback with flexible functions

Whether you're enhancing a live performance with backing tracks from your music library or just livening up a party with some Karaoke, the time stretch, pitch shift, vocal cancel and MP3 lyric display functions will add depth and versatility to any musical event.

Songbook+

SongBook+ is a fit-for-stage app for iPad that allows you to have your songs with lyrics, music notation and more on-hand when performing. With PSR-S775 and PSR-S975, it's very easy to link the selection of a song on your iPad to the corresponding Registration Memory on the keyboard. SongBook+ has received many positive reviews from enthusiastic musicians.
