# REVV G4

*G Series V2*

| | |
|---|---|
| **1. Input** | Guitar in. |
| **2. Output** | Out to amplifier |
| **3. Power** | See requirements below for safe operation. |
| **4. Bass** | Adjust low end level. |
| **5. Middle** | Adjust mid level. |
| **6. Volume** | Adjust output level. |
| **7. Aggression** | Engage (up and down) clipping, or disengage (middle). |
| **8. Treble** | Adjust brightness level. |
| **9. Gain** | Adjust saturation level. |
| **10. On/Off Switch** | Engage or disengage pedal. |

**The Power Requirements.**
Recommended Voltage: Power is 9 volts and 14mA. Isolated Center Negative Tip External Supply Only.

## Understand The G-Series

G-Series pedals are all-analog recreations of Revv's Generator 120 amplifier channels, serving as preamps or "amp in a box" pedals. The G Series V2 features circuit revisions from ten years of amplifier and six years of pedal development for an organic feel. The G4 model, based on the Red Channel, delivers thick high gain with fat single notes for classic tones and modern rock chording, while improving versatility in lower gain settings and midrange clarity.

## Getting Started

Power only via isolated 9v center negative power supply. Start with Volume at zero and all other knobs at noon. Engage G4 and raise Volume to a comfortable level. Utilize the Bass controls on your G4 and amplifier together to find a combination that is thick but still tight. G4's big, chewy tone means it can optionally be boosted with an overdrive for low end and midrange sculpting just like an amp. With any pedal,  be careful to not add too much Gain; balance is key.

## Aggression Voices

G4 has 3 Aggression voices controlled by the center toggle switch. While they can be broadly thought of as controlling the amount of distortion (Off = least, Blue = medium, Red = most), these 3 voices substantially alter the performance of the pedal. Even set to Off, G4 has a healthy amount of crunch; so listen for the changing character of the saturation between modes.

## Warranty

Please fill out the form on the website below within the next 30 days to claim your warranty. Revv Amplification will repair or replace: defective workmanship or materials at its discretion on all new Revv Amplification products purchased directly or through authorized dealers for one year from the day of purchase. This warranty does not cover shipping costs, product appearance, or damages caused by accident, abuse, alteration, or misuse. No other warranty is expressed or implied. **WWW.REVVAMPLIFICATION.COM/WARRANTY**
