

xtSA Trans Black Flame

sku: 025503

A jack-of-all-trades and master of all of them, the xtSA's incredible sound power begins with three distinct voices: electric guitar, acoustic guitar, and synth. The xtSA delivers big-time electric sounds via the Godin humbucker-single-humbucker pickup configuration and thanks to a special 5-way switch setup, extra meaty humbucker tones co-exist with glassy split-coil sounds in the second and forth positions. Turn down the electric output and raise the volume on the LR Baggs transducer saddles and the xtSA becomes an incredibly authentic-sounding 'acoustic' guitar. The acoustic voice of the xtSA is enhanced by an onboard preamp with a three-way graphic EQ. The two outputs are set up so that the electric and acoustic voices can be blended while using a single patch cord or at the amp/mixer via both outputs. Also, the xtSA's synth tracking, which simply put, is the best in the business. As with all of Godin synth-ready instruments, a built-in 13-pin connector provides direct access to all Roland™ GR-Series synths as well as most other 13-pin devices. All of this sound power would be a lot less interesting if the guitar didn't feel great but the xtSA sure does, thanks to the same 25½" scale and mahogany neck used on the Godin LGX-SA flagship guitar. The Richlite® fingerboard is shaped with Godin's ergocut technique and equipped with medium jumbo frets. The body is made of a silver leaf maple center with poplar wings and is topped with a Premium grade veneer of highly figured Koa.

Body : Silver Leaf Maple Center with Poplar Wings

Orientation : Right

Top : Figured Maple

Neck : Mahogany

Fingerboard : Richlite

Fingerboard Radius : 16" (406.4 mm)

Scale Length : 25.5" (647.7 mm)

Nut Width : 1.72" (43.688 mm)

Nut Type : Graphtech

Frets : 22

Machine Head Ratio : 18:1

Neck Pickup : Custom Godin Humbucker

Middle Pickup : Godin Single Coil

Bridge Pickup : Godin Custom Humbucker

Bridge and Tailpiece : Floating Tremolo Bridge

Controls : Volume, Tone, Synth Volume, Custom Pre-Amp

With 3-Band EQ, 3 Outputs: Electric / Acoustic / Mix

Bridge Electronics : Tremolo Bridge With LR Baggs Transducer Saddles And 13-Pin Output, Acoustic Output

Color Name : Trans Black Flame

Finish : High Gloss

String Set : E10

String Gauges : .010 .013 .017 .026 .036 .046
