

Spark LINK XLR

Wireless XLR Audio System

Pure performance. Zero cables.

Leave your cables behind with Spark LINK XLR – a wireless XLR audio system designed for dynamic microphones and more. Compact and portable, it's ready to go right out of the box with instant pairing, ultra-low latency, and a rechargeable battery that powers hours of performance. Perfect for gigging musicians, vocalists, content creators, or even public speakers, Spark LINK XLR is the easiest way to go wireless and sound amazing doing it.

Spark LINK XLR

Pure performance.

Zero cables.

Pro-Grade Wireless Audio

Studio-quality **24-bit/48kHz** audio with **103.7dB** dynamic range over a stable **2.4GHz** wireless connection.

Ultra-Low Latency

As low as 3ms of latency for real-time response in live settings. Hear yourself exactly when you should.

Wireless Freedom

Up to 21 meters (approx 70 ft) of wireless range and **7 hours of battery life** on a single charge.

Built for the Whole Band

Connect up to **four** Spark LINK XLR systems in the same space.

Your Entire Setup, Now Wireless

Spark LINK XLR pairs beautifully when connecting a microphone to **Spark LIVE** and **Spark EDGE**—but it's also built to make any setup wireless. Just connect any dynamic XLR microphone to the Spark LINK XLR transmitter and plug its receiver directly to the mic level input of a PA system, mixer, or audio interface. No complicated setup, no special gear needed. It's wireless that just works.

Spark LINK XLR is compatible with:

- Dynamic microphones that do not require phantom power
- XLR devices with a mic level out

Hear Every Detail

Spark LINK XLR delivers full-range, uncompressed sound with 24-bit/48kHz resolution and **103.7dB** of dynamic range. Whether you're singing or speaking your tone stays crystal clear from the source to the system.

Stay in Sync

Timing matters. That's why Spark LINK XLR is built with ultra-low latency—**as low as 3 milliseconds**—so your voice stays perfectly in sync with your performance. No lag, no distractions.

Move Freely

With a transmission range of up to **21 meters (approx 70 feet)**, Spark LINK XLR gives you the freedom to roam. From crowded stages to street performances, it keeps you connected without dropouts.

Just Plug In and Go

Spark LINK XLR auto-pairs in seconds—no channels to scan, no menus to scroll. LED indicators show you're connected and ready to perform. You can even connect up to four Spark LINK XLR systems simultaneously without interference.

Spark LINK XLR

Bold sound. Simple setup. No strings attached.
