

Spark CAB 2

140W Powered FRFR Speaker Cabinet

Turn it up. Way up.

Spark CAB 2 is the rig expander for Spark, turning any Spark amp into a full rig with 140 watts of clean, full-range power. Redesigned inside and out with re-tuned acoustics and an upgraded signal path, it delivers the volume and clarity for home practice, rehearsal, and the stage. It's the true companion to the Spark family — and just as capable as a full-range cab for any line-level modeler, pedal, or amp you already play.

Redesigned inside and out.

More than just a new finish. The acoustics and electronics have both been revamped.

- Re-tuned voicing and an upgraded conversion stage for cleaner sound at any volume
- Refined signal path that stays composed at any volume
- Finish matched to Spark 2—available in Black and Pearl

Full-range power.

A 140-watt Class D power section drives a 10-inch woofer and two 1-inch tweeters. Push it and it stays clean.

- 140W RMS / 400W peak, Class D
- 45 Hz–20,000 Hz range, 118 dB SPL (RMS)
- Contour and Ground Lift switches for tone shaping and noise control

Powers your whole Spark rig.

Plug in your Spark CAB 2 and then it powers your Spark setup.

- DC output powers Spark 2 and Spark 40
- USB-C output powers and charges Spark MINI, GO, and PEDAL
- The same USB-C port handles firmware updates

Connect your Spark. Or plug in your rig.

At home, on stage, or in the studio.

- Dedicated 3.5mm stereo input for Spark amps, with input selector
- 2x mono XLR/TRS combo inputs
- 1x balanced XLR output
- Independent Speaker and Line Out volume controls
- Works with modelers, floorboards, amp sims, and any line-level source

Everything you love about Spark, amplified.

At home or on stage, Spark CAB 2 gives your Spark the volume, headroom, and presence of a full rig. It's ready for any modeler, pedal, or line-level rig you bring to it.

Built to stack.

- Wood cabinet construction with tolex & grille to match Spark 2
- 2× recessed side handles
- Adjustable cable tie
- Weight: 13.5 kg / 29.76 lbs
