DAP DM-20

*Dynamic low-frequency instrument  
microphone*

DAP

EAN: 8717748032515

The DAP DM-20 Dynamic Instrument Microphone is especially designed and tuned to capture the low punch of low-frequency instruments, such as a kick drum, double bass or bass-amp. You can place the microphone in a kick drum or close to a bass amp (close-miking) due to its supercardioid pickup pattern. It'll capture frequencies from 20 Hz-12.5 kHz. 20 Hz is as low as the human ear can hear. Besides, its strong aluminium housing with integrated stand mount is fit to survive the rigours of frequent touring.

#### Special features:

- Supercardioid pickup pattern
- Suitable for low-frequency instruments
- Dynamic moving coil
- Strong aluminium housing
- Integrated stand mount
