Special features	patented expanding mandrel system »Ring Lock«; vibration-free connection due to moveable plastic splints; for precise and vertical fit
Rod combination	2-piece folding design
Type	black
Price display	
Max. load capacity	35 kg
Material	steel
Tube end(s)	»Ring Lock« diameter 35 to 37 mm, threaded bolt M20

This high quality, height adjustable distance rod is a guarantee for a secure, stable and quiet connection to satellite systems. The height is adjusted by an easy-to-use spring-loaded bolt and locking screw. The distance rod is connected to the subwoofer using the M20 threaded bolt. The unique patented expanding mandrel system provides a stable, tight and firm fit for satellite speakers. The movable plastic splints provide for a vibration-free connection between the rod and the speaker. Connecting the speaker is easy and is done using the handy ring lock - which is simply placed in position and screwed on.
